Why train to teach with STTA?

Rooted in Sheffield, Shaping the Future of Teaching Across South Yorkshire

At the heart of Sheffield, we work with schools across Sheffield, Rotherham, and surrounding areas to deliver school-led, teacher-driven training that's grounded in real classroom experience and backed by cutting-edge research from the UK's first teacher training university.

End-to-End Teacher Development

As a regional Hub for Sheffield & Rotherham, we support teachers from Initial Teacher Education (ITE) through to leadership roles—ensuring continuity and growth

Local Knowledge, Local Impact

We understand South Yorkshire's priorities and work with over 100 schools to place trainees close to home, considering personal and travel needs

Right Size, Right Relationships

Big enough to be effective, small enough to care—you'll always know who to call.

Flexible Routes & Funding

We offer a fully funded Postgraduate Teaching Apprenticeship for those already employed in schools, plus bursaries for shortage secondary subjects as well as part time routes.

Immersive ABA Placement Model

Trainees are part of a school from day one, gaining full, hands-on experience—not just snapshots

Trusted and Proven

With 12 years of teacher training and strong word-of-mouth reputation, we're known for excellence

Innovation & Integrity

We lead with evidence-based approaches, always putting children's learning at the heart of what we do.

We're passionate about developing confident, skilled teachers who make a real difference in South Yorkshire classrooms.

If you're ready to train where it matters—with people who care, in schools that inspire—we can't wait to welcome you to interview. Let's start your journey together
